## 2nd Edition

**Absolute Stability Of Nonlinear Control Systems 2nd Edition** - This includes nonlinear control systems with multiple controls, interval control systems, time-delay and neutral Lurie control systems, systems described by functional differential equations, the absolute stability for neural networks, as well as applications to chaos control and chaos synchronization. Liao Huazhong University of Science and Technology Hubei, China and P. Yu University of Western Ontario Following the recent developments in the field of absolute stability, Professor Xiaoxin Liao, in conjunction with Professor Pei Yu, has created a second edition of his seminal work on the subject. Liao begins with an introduction to the Lurie problem and the Lurie control system, before moving on to ...
